## SUBTRACTION WORD PROBLEMS

Read the math story and use drawing or number bond to show how you know who is right.

1) a) Toby says that the expressions $13-5$ and $16-7$ are equal. Todd says they are not equal. Who is right?
b) Todd says that the expressions $11-6$ and $11-9$ are equal. Toby says they are not equal. Who is right.
c) Toby says that to solve $13-8$, I can take 2 from 13 and give it to 8 to make it 10. So, $13-8$ is equal to $11-10$. Todd thinks Toby made a mistake. Who is correct?
d) Toby and Todd are trying to find several subtraction number sentences that start with number larger than 10 and always have an answer of 7. Help them figure out the number sentences. They started the first one.

$$
15-8=
$$

$\qquad$ .
