SUBTRACTION WORD PROBLEMS

Read the word problem. Draw and label. Write a number sentence and a statement that matches the story. Draw a box around the solution in the number sentence.

- 1) Lisa bought some pens. There are 9 red pens. Lisa also bought some blue pens. If she bought 17 pens, how many blue pens are there?

- 2) Mike has 14 cars. He has some yellow cars and some green cars. If he has 5 yellow cars then how many green cars he has?

- 3) Jim has 13 cupcakes. He has some vanilla cupcakes and some straw berry cupcakes. If he has 7 vanilla cupcakes, then how many strawberry cupcakes he has?
