SUBTRACTION WORD PROBLEMS

Read the word problem. Draw and label. Write a number sentence and a statement that matches the story. Draw a box around the solution in the number sentence.

- 1) Rick collected 11 rose flowers. He also collected some sunflowers. If Rick collected 13 flowers in all, how many sunflowers Rick collected?

- 2) Toby gave 7 puppies to his neighbors. If he has a total of 16 puppies in all, how many puppies are left with Toby?

- 3) Marry counted 8 sparrows on the tree. She also counted some pigeons. If she counted a total of 15 birds in all, how many pigeons Marry counted?
