## SUBTRACTION

## Word problems subtraction taking as base 10.

1) Evan has to travel 80 miles to reach his best friends house. He travelled 30 miles and stopped for dinner. How many miles Evan has to still travel to reach his best friend's house?

## Solution:

Evan has to travel $\qquad$ miles.

Evan travelled $\qquad$ miles.

Evan has to still travelled = $\qquad$ - $\qquad$ $=$ $\qquad$ .
