ATTRIBUTES OF GEOMETRY SHAPES

Use attributes to draw different polygons including triangle, quadrilaterals, pentagons and hexagons.

1) Use your straight edge to draw 2 new examples of each polygon that are different from those you drew on the first page.

a) Quadrilateral:

Example 1:	**Example 2:**

b) Hexagon:

Example 1:	**Example 2:**

c) Pentagon:

Example 1:	**Example 2:**

d) Triangle:

Example 1:	**Example 2:**
