

NAME _____ DATE _____

MEASUREMENTS OF DIFFERENT OBJECTS

Check your answers with a related addition or subtraction sentence.

Example:

$$8 \text{ inches} - 5 \text{ inches} = \underline{3} \text{ inches.}$$

Check: $\underline{3} \text{ inches} + 5 \text{ inches} = 8 \text{ inches.}$

1) $8 \text{ centimeters} + \underline{\quad} \text{ centimeters} = 19 \text{ centimeters.}$

Check: $19 \text{ centimeters} - 8 \text{ centimeters} = \underline{\quad} \text{ centimeters.}$

2) $17 \text{ centimeters} - 8 \text{ centimeters} = \underline{\quad} \text{ centimeters.}$

Check: $\underline{\quad} \text{ centimeters} + 8 \text{ centimeters} = 17 \text{ centimeters.}$

3) $\underline{\quad} \text{ centimeters} + 6 \text{ centimeters} = 18 \text{ centimeters.}$

Check: $18 \text{ centimeters} - 6 \text{ centimeters} = \underline{\quad} \text{ centimeters.}$

4) $2 \text{ inches} + \underline{\quad} \text{ inches} = 7 \text{ inches.}$

Check: $7 \text{ inches} - 2 \text{ inches} = \underline{\quad} \text{ inches.}$

5) $12 \text{ inches} - \underline{\quad} = 8 \text{ inches.}$

Check: $12 \text{ inches} - 8 \text{ inches} = \underline{\quad} \text{ inches.}$
