## ADD OR SUBTRACT

Count the number of pictures and split into two parts relevantly and add it.

Example:

$$\text{Number of children} = \text{[boy]} + \text{[girl]} = 1 + 1 = \underline{2}$$

1)

$$\text{Number of children} = \text{[boy]} + \text{[boy]} + \text{[girl]} + \text{[girl]} = 2 + 2 = \underline{\quad}$$

2)

$$\text{Number of children} = \text{[boy]} + \text{[boy]} + \text{[boy]} + \text{[girl]} + \text{[girl]} + \text{[girl]} = 3 + 3 = \underline{\quad}$$

3)

$$\text{Number of children} = \text{[boy]} + \text{[boy]} + \text{[boy]} + \text{[girl]} + \text{[girl]} + \text{[girl]} + \text{[girl]} + \text{[girl]} = 3 + 5 = \underline{\quad}$$
