

NAME _____

DATE _____

ADD OR SUBTRACT

Solve the problems by using the number bonds.

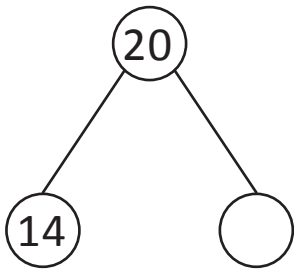

Daniel found \$ 14. His father gave him some more. Then he had \$ 20. How much money was he given? Write a number sentence to show your thinking.

Daniel found dollars = ____.

Money with Daniel when his father gave him some more = ____.

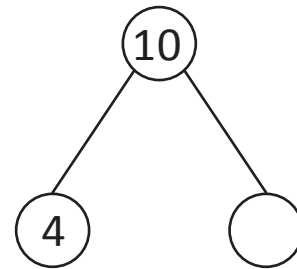

How much money was his father given = ?.

By using number bond we have.

$$20 - 14 = \underline{\quad}$$

His father gave him ____ dollars.

$$4 + \underline{\quad} = 10$$

His father gave him ____ dollars.

Total dollars.

Dollars with Daniel.

$$10 - 4 = \underline{\quad}$$
