ADD OR SUBTRACT

Solve the problems.

1. There are 89 mangoes in a tree. 3 mangoes fell down. How many mangoes left with the tree?

Number of mangoes in a tree = ____

Number of mangoes fell down = ____

Remaining mangoes = $89 - 3 =$ ____

By using number bond.

$$9 - \underline{\quad} = 6$$

$$6 + \underline{\quad} = \underline{\quad}$$

(OR)

$$89 - 3 = \underline{\quad}$$

$$\text{Basic fact} = 9 - 3 = \underline{\quad}$$

2. There are 76 chairs in a conference hall. 5 chairs have been broken. How many chairs are available to sit in the hall?

Number of chairs in the hall = ____

Chairs broken = ____

Chairs in good condition = $76 - 5 =$ ____

By using number bond.

$$6 - 5 = \underline{\quad}$$

$$70 + \underline{\quad} = \underline{\quad}$$

(OR)

$$76 - 5 = \underline{\quad}$$

$$\text{Basic fact} = 6 - \underline{\quad} = \underline{\quad}$$
