

NAME _____

DATE _____

ADDITION OR SUBTRACTION

Solve each problem with a written strategy such as a tape diagram, a number bond, the arrow way, the vertical method or chips on place value chart.

Example:

The vertical method: (Using disks on the place value chart)

Numbers	Hundreds	Tens	Ones
220			
30			
220 + 30	2	5	0

$$220 + 30 = \underline{200} + \underline{50} = \underline{250}$$

Using chips on the place value chart:

Numbers	H	T	O
220			
30			
220 + 30	2	5	0

$$= 220 + 30 = \underline{2} \text{ hundreds} + \underline{5} \text{ tens} = \underline{250}$$
