FOUNDATION CONCEPT FOR MULTIPLICATION

Learn the multiplication by repeated addition.

Example:

a) 5 groups of 2.

Solution:

$$= \underline{2} + \underline{2} + \underline{2} + \underline{2} + \underline{2} = \underline{10}.$$

$$= 5 \text{ groups of } 2 = \underline{10}.$$

Do the following problems as stated above.

1) 4 groups of 4.

Solution:

$$= _ + _ + _ + _ = _.$$

$$= 4 \text{ groups of } 4 = _.$$

2) 2 groups of 8.

Solution:

$$= _ + _ = _.$$

$$= 2 \text{ groups of } 8 = _.$$
