

NAME _____

DATE _____

IDENTIFICATION OF DIFFERENT ARRAY

Identification of array by given objects.

Example:

Count that smiley faces one row at a time. Write a repeated addition number sentence to find the total.

$$\underline{5} + \underline{5} + \underline{5} + \underline{5} = \underline{20}.$$

1) Count that dogs one column at a time. Write a repeated addition number sentence to find the total.

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}.$$

2) Count that peacocks one column at a time. Write a repeated addition number sentence to find the total.

$$\underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} + \underline{\quad} = \underline{\quad}.$$
