# BUNDLE AND COUNT

Draw and solve all in a bundle by repeating addition.

Example:

In her class room, Sally made 17 bundles of 10 straws did she bundle in all?

Sally made _17_ bundles.

Straws in each bundles = _10_.

$$100 + 70 = 170$$

All the straws in the bundles = _170_.

----

1. David bought 13 packets of 10 pins. How many total pins are there?

David bought ____ packets of pins.

Pins in each packet = ____.

____ + ___ = _____

Total pins = _____.
