# ALPHABET MAZE

Trace the maze using different colors and find animals.

A circular maze divided into five sections by black lines. The sections contain the letters M (blue), N (pink), L (purple), O (orange), and K (green). The maze is surrounded by a pink border with several exits. Five animals are positioned around the maze: a monkey at the top, a bird on a branch on the left, an owl on a branch at the bottom left, a kangaroo at the bottom right, and a ladybug on the right. Dotted lines of various colors (blue, pink, orange, green) show the paths through the maze, starting from the center and ending at the exits.
