## SPELLINGS (SILENT LETTERS)

Some letters in a word are not pronounced. They are called silent letters. Silent letters cause sheer confusion for writing spellings.

Read the following words and circle the silent letter/letters in them.

1) Hour                      -----                      Night

2) Whip                      -----                      Neighbor

3) Autumn                      -----                      Sight

4) Christmas                      -----                      Whistle

5) Guy                      -----                      Guard

6) Knock                      -----                      Calm

7) Wrestle                      -----                      Walk

8) Hymn                      -----                      High
