NUMBER BOND

Do as many as you can in 60 seconds.

Example:

```
      7
     / \
    1   6
```

```
      7                  7                  7
     / \                / \                / \
   ( )  1              3  ( )           ( )   7
```

```
      7                  7                  7
     / \                / \                / \
   ( )  5              4  ( )           ( )   2
```

```
      7                  7                  7
     / \                / \                / \
   ( )  6              7  ( )           ( )   4
```

```
      7                  7                  7
     / \                / \                / \
    2  ( )             1  ( )           ( )   3
```
