WORD PROBLEMS

Read the word problems.
Draw a tape diagram or double tape diagram and label.
Write a number sentence and a statement that matches the story.
Example:

Peter has 5 muffins. Anton has 7 muffins. How many more muffins does Anton have than peter?

Muffins have by Peter	5	
Muffins have by Anton	5	2
Number of muffins have Anton more than Peter		?

Number of muffins have Anton more than Peter $= 7 - 5 = 2$

----
