REFLEXIVE PRONOUNS

A reflexive pronoun refers back to a noun / pronoun (subject) of a sentence. It adds information about the noun / pronoun it refers. Reflexive pronouns are used when the subject and object are the same in a sentence. They also refer to the personal pronouns mentioned earlier in a sentence. They are formed by the addition of – self or – selves to the personal pronouns. When a reflexive pronoun used, the action done by the subject turns back (reflects) upon the subject.

Match 'A' group with 'B' group. Match the relevant reflexive pronoun with the help of an arrow. The first one is done for you.
