REFLEXIVE PRONOUNS

A reflexive pronoun refers back to a noun / pronoun (subject) of a sentence. It adds information about the noun / pronoun it refers. Reflexive pronouns are used when the subject and object are the same in a sentence. They also refer to the personal pronouns mentioned earlier in a sentence. They are formed by the addition of – self or – selves to the personal pronouns. When a reflexive pronoun used, the action done by the subject turns back (reflects) upon the subject.
