## ADJECTIVES (IDENTIFY ADJECTIVES)

An adjective describes / modifies a noun or pronoun. Usually it comes before a noun it qualifies or points out. Adjectives are used to make sentences more interesting, vivid and colorful. They add something to the meaning of nouns / pronouns. Speaking, reading and writing of English will remain dull without adjectives. Usually they are answers to questions like: What kind? How many? Which one? etc..... **Examples:** Clever fox, Some rice, Blue book.

Read the following sentences and identify adjectives and nouns in them. Circle the adjectives and draw a line under the nouns they qualify.

Examples:

a) The elephant has a long trunk.

b) The woman ate some rice and slept.

c) There are four birds on the branch.

1) I like such vegetables.

2) He is a great Engineer.

3) What a snowfall!
