## UNDERSTAND CONCEPTS ABOUT THE RULER

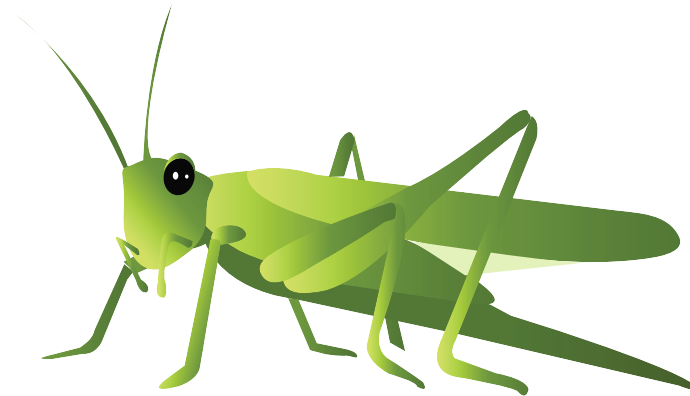

Connect measurement with physical units by using multiple copies of the same physical unit to measure.

Use centimeter cubes to find the length of each object.

- 1) The length of the picture of the shovel is about \_\_\_\_ centimeters.

- 2) The head of the grasshopper is 2 centimeters long. The rest of the grasshopper's body is 7 centimeters long. What is the total length of the grasshopper.

The head of the grasshopper is \_\_ centimeters long.

The rest of its body \_\_ centimeters long.

Total length of the grasshopper = \_\_ + \_\_ = \_\_ centimeters.

- 3) The length of the picture of the tennis bat is about \_\_\_\_ centimeters.
