

NAME _____ DATE _____

MEASUREMENTS OF DIFFERENT OBJECTS

Choose the units to measure objects.

- 1) Name 3 things in your home. Decide which unit you would use to measure that item. Record it in the chart in a full statement.

Item	Unit
a) Bicycle	I would use _____ to measure the length of bicycle.
b) Spoon	I would use _____ to measure the length of tea spoon.
c) T.V. Screen	I would use _____ to measure the length of T.V. screen.

- 2) Estimate the length of each item by using a mental bench mark. Then measure the item using feet, inches or yards.

Item	Mental bench mark	Estimation	Actual length
a) Length of an eraser.	_____	_____	_____
b) Width of the paper	_____	_____	_____
