## MAKE A TEN TO ADD WITH IN 20

Addition using a suitable strategy do the following word problems.

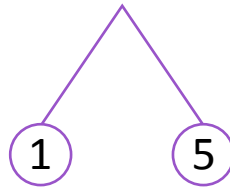

1) Jennifer has 9 markers at school and 6 at home and Orlando has 7 markers at school and 8 at home.

a) How many markers does Jennifer have?

Markers with Jennifer at school = \_\_\_

At home = \_\_\_

$$\text{Total} = 9 + 6$$

$$= \text{___} + 5 = \text{___}$$

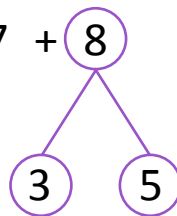

Jennifer have \_\_\_ markers.

b) How many markers does Orlando have?

Markers with Orlando at school = \_\_\_

At home = \_\_\_

$$\text{Total} = 7 + 8$$

$$= 10 + 5 = 15$$

Orlando have \_\_\_ markers.
