PROBLEM SOLVING QUESTIONS

Understand the following given data and then solve the problems.

Example:

a) Alex says that 14 is an even number. Do you agree with him? Explain your thinking using pictures, numbers or words.

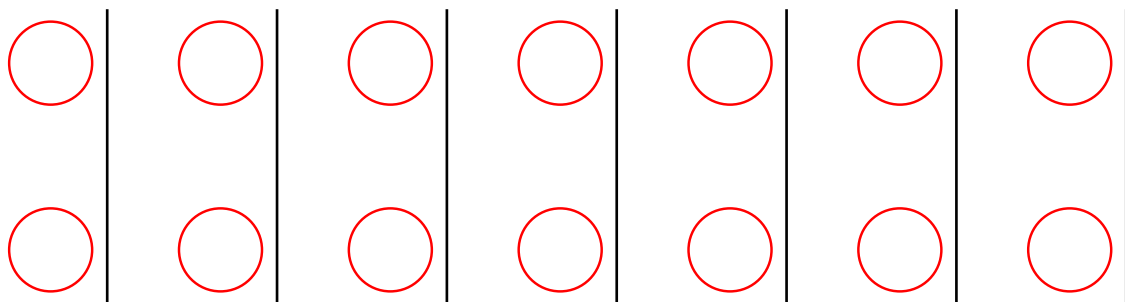

Solution:

- 14 is an even numbers.

- I agree with Alex.

Explanation:

- We can draw by taking circles in an array.

If it is possible to divide the number of objects into groups of 2 (2 objects in each group) without leaving any object then it is said to be even.

b) Draw an array using 14 circles in 2 rows (The rows have been drawn for you).

Solution:
