ALPHABET MAZE

Trace the maze using different colors and find animals.

The maze is a circular structure with a pink outer wall and a black inner wall. It is divided into five sections by black lines that meet at a central point. The sections contain the following letters: 'J' (pink), 'I' (blue), 'H' (purple), 'F' (orange), and 'G' (green). The maze is surrounded by five cartoon animals: a yellow leopard (top left), a green lizard (top right), a yellow chicken (right), a green frog (bottom left), and a yellow giraffe (bottom right). Dotted lines in various colors (blue, purple, green, orange) show the path through the maze. Arrows point from the animals towards the maze entrance.
